Summary

With 8 years of media experience, I've studied how to create entertaining content through storytelling and teamwork, bringing projects to the screen. I learned other fields of production, from filmmaking to multi-cam streaming, to see many perspectives of production environments. My career made an achievement, working with the Olympic Broadcasting Services in the Paris 2024 Summer Games.

Education

Bachelors of Arts in Film Production

Asbury University

📅 August 2021 - May 2025 📍 Wilmore, Ky

Achievements

- Olympic Broadcasting Service (OBS) Certification of Participation
- Bachelor of Arts | Film Production

Skills

- Multi-Cam
- Film Production
- Audio Production
- Storytelling
- World Creation
- Video Editing
- Live streaming
- Podcasting
- Graphic Design
- Acting
- Theatre Acting

Course Work

Intro to Film Production

An introduction to the film world with hands-on practical experience in addition to coursework in these production positions.

Multi-Cam

A study on live streaming productions with position work and how to set up a streaming service.

Single-Cam

A challenging course that focuses on making short films only using the fundamentals of camera, audio, and lighting work with a little budget in mind.

Producing for Film

studied how to pitch films and production ideas to companies. Learned budgeting and everything needed to produce a project and, more importantly, to keep it a safe environment.

Audio Production

Practice post-production audio mixing and practice making audio clean and enjoyable to listen to.

Interactive Media

Trained how to use Adobe and other digital designing programs to create posters, digital platforms, articles, and graphic design.
